

# CHARGER SERIES

## Stationary Compactors

**"EQUIPPING THE WORLD FOR A BETTER ENVIRONMENT"™**

*The new Cram-A-Lot Charger Series represents the next step in the evolution of the stationary compactor*

### Standard Features Include

- Made in the USA
- Complete Machine UL Listed
- ANSI Z245.2 Compliant
- 24 Volt Operator Controls
- Side-Mounted Power Unit with Remote Control Pendant
- NEMA 4 Rated Controls with Key-Lockable Start Switch
- Key-Lockable Hauler Safety Switch
- TEFC (Totally Enclosed Fan-Cooled) Electric Motor
- JIC & O-ring Fittings throughout Hydraulic System
- Oil Sight Gauge
- Floor Riding Ram Design with UHMW Tail Guides
- Serviceable Ram Wiper
- Turnbuckles & Container Hooks

Our new Charger Series stationary compactors (2 to 4 cubic yard capacities) was designed for businesses that generate low to moderate volumes of waste and recyclables. These models were designed from the ground up to require minimal maintenance and repairs, limiting the disruption of downtime to your business operations.

In designing the Charger Series, our engineers utilized a “balanced design” approach, using computer aided stress analysis in conjunction with real-world destructive testing for design validation. This Cram-A-Lot dedication to robust design ensures that your compactor will be built to last, providing many years of service.

All Charger Series compactors feature a floor riding ram design, which minimizes the maintenance associated with guide shoe adjustment while minimizing material migration behind the ram. The new side-mounted power unit places key electrical and hydraulic components safely outside of the compactor chassis. Our power units are also designed and manufactured “in house” so we can maintain complete quality control of these critical systems.

### Charger Series compactors are perfect for applications such as

- Retail Stores
- Shopping Malls
- Apartment Complexes
- Warehouses
- Distribution Centers
- Manufacturers & Industrial Facilities
- Schools & Universities
- Hospitals & Healthcare Facilities

**Open Top Hoppers**  
for outdoor walk-up or  
drive-up applications

**Enclosed Hoppers**  
for outdoor walk-up applications

**Full Enclosures**  
for installation at dock  
doors. Available in  
walk-on or drive-on  
configuration

**Through the Wall**  
configuration can be fed  
from interior of the building  
via security door

**Dock Mount Hopper**  
with safety gate for installations at  
docks or dock doors. Available in  
walk-on or drive-on configurations

## Breaker Bar Teeth – (Optional)

Fixed or Hinged breaker bar teeth can be specified to hold the material into the container, maintaining a clear compactor charge area.

## Serviceable Wiper Blade

New flexible wiper design prevents material from migrating behind ram. Replaceable without welding.

## Adjustable Tail Guides

UHMW guides assure straight tracking of ram and are adjustable for wear. Replaceable without welding.

## Remote Controls

A 4 position, NEMA 3R remote control pendant is standard on all models. Includes 15' lead and 24 volt operators.

## Side Mounted Power Unit

Side mounted power unit features full length weather cover, TEFC electric motor, vane-style hydraulic pump, and sight gauge for oil level & temperature. Can be specified right hand or left hand mount from factory.

### Charger Series Compactor Steel Options

- Angle Guides
- Channel Guides
- Breaker Bar Teeth (Fixed or Hinged)
- Pin Off System with Jog Control

### Charger Series Electrical & Hydraulic Options

- 75% & 100% Full Lights Combined
- Color Coded Pressure Gauge (Factory Mounted or Field Mounted)
- Remote Power Unit
- Full Remote Controls, 15' Lead (Four or Six operators)
- Multi-Cycle Operation, 3 Cycles (with or without selector switch)
- Auto-Cycle Operation w/ Photocell
- Conveyor Feed with Upper Photocell
- Hold To Run
- Oil Heater
- Oil Level Shutdown
- Oil Temperature Shutdown
- Biodegradable Oil
- Hydraulic Oil & ATF Blend – 50%
- Sonozaire Odor Neutralizer
- Single Phase Voltage Options (5hp, 230V, w/ 2 Stage Pump)
- Three Phase Voltage Options (208V, 230V, 460V, 575V)

### Available Paint Options

- 14 standard color options to choose from in high gloss industrial enamel
- Paint-to-Sample – we can color match to your custom paint sample
- Two-tone paint schemes possible including safety yellow handrails and safety gates, and white inside full enclosures
- Additional primer coat and/or top coat for salt air environments

*Our Engineers can custom design your equipment to meet your unique needs.*

### Ozone Odor Neutralizer

Our odor neutralizer systems provide effective odor control and air purification by producing ozone from atmospheric oxygen. Ozone eliminates odors without the use of deodorants or chemicals.

### Color Coded Pressure Gauge

User friendly pressure gauge indicates the fullness level with green, yellow, red, and orange zones which allow the operator to quickly identify container fullness.

### Oil Heater

For use in cold climate areas, our oil heater is thermostatically controlled to maintain the oil reservoir above 70° F.

### Remote Power Unit

Our remote power unit option can be specified where the application calls for the power unit to be mounted inside the building, or where remote mounting facilitates better accessibility for repair and maintenance.

### Oil Level Shutdown

The oil level shutdown option uses a reservoir mounted float and indicator light to notify the machine operator of a potential oil leak or hydraulic system failure. This option helps reduce oil spillage and saves hydraulic system components that can be damaged by continued use during low oil levels.

Dimensions

	ST-2S	ST-2HP	ST-2HF	ST-3S	ST-3HF	ST-4HP	ST-4HF
Overall Length (A)	122-1/8"	122-1/8"	122-1/8"	168-7/8"	168-7/8"	187-1/2"	187-1/2"
Clear Top Length (B)	40"	40"	39-1/2"	62"	61-1/2"	70"	69-1/2"

- Fastest Cycle Time in Class\* (Models ST-2HP, ST-2HF, ST-3HF)
- Highest Normal Force in Class\* (Models ST-2HF, ST-3HF & ST-4HF)
- 48 1/8" Deck height on all models
- All cylinders made in USA

### Quality & Reliability

When you purchase Cram-A-Lot you receive much more for your investment than quality equipment, you get the Cram-A-Lot team.

And because of the confidence we have in our team to design and build quality equipment, we were the first in the industry to offer a 1-2-3 warranty.

### The **CRAM-A-LOT**® 1-2-3 Warranty is simple...

1.

All parts and labor expenses through the first year to remedy defective materials or workmanship.

Year **1** Parts & Labor

2.

All parts through the second year to remedy defective materials or workmanship.

Year **2** Parts

3.

All labor expenses through the third year to remedy any structural faults that result from defective materials or workmanship.

Year **3** Structural Failure
