J.V. Manufacturing, Inc. has offered a complete line of Cram-A-Loff trash compactors for your waste disposal needs since 1984. We offer compactors of various sizes, from small apartment compactors to 15 cubic yard capacity transfer compactors.

All designed to safely, quietly and efficiently compact your trash.

*For non-standard units please refer to our specialty compactors brochure.

**Standard Features**

- ANSI Z21.3 Compact All compactors meet or exceed ANSI Z21.3 safety standards.
- Integral Power Unit. Integral to the compactor chassis for security, yet accessible for ease of maintenance and repair.
- Low Profile Controls. Low profile controls for ease of reach to controls.
- Oil Sight Gauge. Oil level at a glance.
- Oil Filter. Replaceable oil filter cartridge to keep your oil clean.
- Heavy duty control. NEMA 4 resist humidification controls with key-secureable switch.
- Single cycle operation.

**Commercial Size A–P–Yard Compactors**

- Commercial size (1 cubic yard nominal size and smaller) Cram-A-Loff compactors are designed for medium-duty service. They are perfect for tough, heavy industrial jobs, garage areas, groceries, hospitals and many more similar applications.

- Engineered to handle large quantities of refuse when transfer station is not applicable.
- Most units totally UL listed.

**Large Industrial B–X–P Feed Compactors**

- Large industrial (3 cubic yard nominal size and larger) Cram-A-Loff compactors are designed for heavy industrial duty service. They are perfect for manufacturing facilities, heavy industrial plants, transfer stations and many more similar applications.

- Additional features include:
  - Power Unit. Innovative hydraulic circuit design is used exclusively in Large Compactors, Horizontal Balers, and Pre-Crusher Compactors.
  - Reduced Components, less noise and vibration.
  - UL listed control panel.
  - More efficient, faster operating, hydraulic system.
  - Longer lead time.
  - Increased performance.

**Remote Controls**

- Remote control system operates with remote control switch as mandated by ANSI Z21.3 safety standards. Can be offered additional options for increased levels of security.

**Color Coded Pressure Gauge**

- The color-coded gauge operates at 10%, 25% and 70% full scale. The gauge is more accurate than needle gauges.

**Hinged Breaker Bar Teeth**

- Hinged breaker bar w/lock in place, preventing trash from springing back into the chamber.

**Odor Neutralizer**

- Odor neutralizer is the feature that eliminates the source, preventing it from forming and detectives odor attachments. The result is a clean working area, which does not bother and prevent nausea, ending odor complaints and assuring customer satisfaction.

**Walk-On Deck Mount**

- Walk-On Deck Enclosure, (8” wide)

**Enclosed Hopper with Side Feed Door**

- Rear Load Through-The-Wall

**Walk-On Full Enclosure (8” Wide)**

- Rear Feed with Dual Through-The-Wall Feed Option
J.V. Manufacturing, Inc. has offered a complete line of Cram-A-Loft trash compactors for your waste disposal needs since 1984. We offer compactors of various sizes, from small apartment compactors to 15 cubic yard capacity transfer compactors.

All designed to safely, quietly and efficiently compact your trash.

*For non-standard units please refer to our specialty compactors brochure.

**Standard Features**
- ANSI Z245.2 Compliant: All compactors meet or exceed ANSI Z245.2 safety standards.
- Integral Power Unit: Integral to the compactor chassis for security, yet accessible for ease of maintenance and repair.
- UL/NFPA Main Controls: Adjustable to assure straight tracking and readily replaceable, should the need arise.
- Oil Tight Housing: Oil level at a glance.
- Oil Filter: Replaceable spin-on cartridge to keep your oil clean.
- Heavy duty vacuum: NEMA 4 rated pump/ambulance control with key-extractable start switch.
- Single cycle operation.

**Commercial Size 4 to 10 Yard Compactors**

Commercial size (4 cubic yard minimum size and smaller) Cram-A-Loft compactors are designed for moderate duty service. They are perfect for larger offices, light industrial plants, grocery stores, hospitals and many more similar applications.

The Standard compactor is designed for heavy commercial, industrial and institutional use. Engineered to handle average quantities of refuse when transfer station is not applicable.

Most units totally UL listed.

**Large Industrial 10 to 25 Yard Compactors**

Large industrial (10 cubic yard minimum size and larger) Cram-A-Loft compactors are designed for heavy industrial duty service. They are perfect for manufacturing facilities, heavy industrial plants, transfer stations and many more similar applications.

Additional features include:
- Power Unit: Innovative hydraulic circuit design is used universally in Large Compactors, Horizontal Bins, and Pre-Conditioner Compactors.
- Reduced Components, less and simpler.
- UL listed control panel.
- More efficient, cooler operating, hydraulic system.
- Longer belt life.
- Increased performance.

All information is subject to engineering and/or other changes without notice.

J.V. Manufacturing, Inc. has offered a complete line of Cram-A-Loff® trash compactors for your waste disposal needs since 1984. We offer compactors of various sizes, from small apartment compactors to 35 cubic yard capacity transfer compactors.

All designed to safely, quietly and efficiently compact your trash.

*For non-standard units please refer to our specialty compactors brochure.

** Features

- ANSI Z48.2 Complian All compactors meet or exceed ANSI Z48.2 safety standards.
- Integral Power Unit: Integral to the compactor chassis for security, yet accessible for ease of maintenance and repair.
- One-Way Drive: Guide Adjustments to ensure straight tracking and readily replaceable, should the need arise.
- Oil Sight Gauge: Oil level at a glance.
- Oil Filter: Replaceable spin-on cartridge to keep your oil clean.
- Heavy duty eccentric, NEMA 4 sealed gimbals, quick release keys to replaceable starter switch.
- Single cycle operation.

** Standard Features**

- Commercial Size R-8 to Yard Compactors
  - Commercial size R-8 cubic yard residential or smaller Cram-A-Loff® compactors are designed for medium duty service. They are perfect for major colleges, big industrial plants, grocery stores, hospitals and many more similar applications.
  - The largest compactor is designed for heavy commercial, industrial and institutional service stations. Engineered to handle above average quantities of waste when transfer stations are not applicable.
  - Most units feature UL listed.
  - Engineered for 10 Year-End Compactor
    - Large industrial 6 cubic yard industrial and larger Cram-A-Loff® compactors are designed for heavy industrial duty service. They are perfect for manufacturing facilities, heavy industrial plants, transfer stations and many more similar applications.

** Additional Features Include:**

- Power Unit: Inverter hydraulic circuit design is used universally in Large Compactors, Horizontal Baler, and Pre-Crusher Compactors.
- Reduced Components, Less and Storage
- UL listed control panel.
- More efficient, cooler operating, hydraulic system.
- Longer life parts.
- Increased performance.

** Standard and Special Applications**

- Remote Controls: All compactors, with or without option as mandated by ANSI Z48.2 safety standards. Cram-A-Loff® offers additional options for increased levels of duty.
- Color Coded Pressure Gauge: The color coded gauge reads 50%, 75% and 100% fill level. The gauge is more accurate than fiberglass.
- Enclosed Hover with Side Feed Door: Ideal for solid, dry areas. The oil heater automatically maintains the oil at 80 degrees.
- Hinged Breaker Bar Teeth: Hinged breaker bar with hold in trash to prevent trash from springing back into the machine.
- Ozone Odor Neutralizer: Odor neutralizers like the Ozone system neutralize the source, preventing it from getting any chance. The result is a pleasant working area, which does not harbor and prevent bacteria, ending odor complaints and affecting customer satisfaction.

** Grand 90-Day Warranty**

- J.V. Manufacturing will furnish without charge, repair or any part or assembly which turns out to be defective during the warranty period. This warranty does not apply to any damage caused by negligence, misuse, modification, alteration, accident, or purchase of thrill factors. Fees are not covered unless specifically covered by the warranty.
Stationary Compactors units can be custom designed and factory installed to suit your special applications.

**ELECTRICAL FEATURES ON ALL MODELS**
- UL Listed Control Panel
- Only Major Brand Electrical Components Used
- Weather Tight Electrical Enclosure
